

PRINTABLE GUIDE

Thank you for your purchase from [ArticSpace](#).

Read the instructions.

writes mail if you have any questions, and we will gladly
help

help.articspace@gmail.com

2 SIMPLE STEPS TO PRINT

1. Take the photo (s), which comes with the download, to a photographic development center.
2. Decide the size you want to print: 4x6, 8x12, 12x18, 16x24, 24x36, 30x45 or 40x60 inches (other sizes can choose if you wish, as long as the aspect ratio is maintained 2:3)

WHERE CAN I GET THEM PRINTED?

You can print the photo(s) at any specialized photo development center or upload them to an online printing service.

To find places to print in your city, try a Google search including terms such as "Art Printing," "Photo Printing," or "Online Digital Printing."

WHAT PAPER SHOULD I USE?

There are countless photographic papers on the market for every need, but the most widely used are matte paper and glossy paper. You can choose either to your preference.

TO FINISH

I love that you have chosen these works of art to beautify your home. Here I share a link from Spotify to harmonize even more
